

Home Media Reviews Entertainment Network Links

**Family Vision Entertainment Group** opened business to promote **media**, **theatre**, **and concert events** into the public mainstream with *children*, *youth*, *and families in mind*.

In addition to promoting events, we produce and market productive venues with *positive messages* and *sound moral content* in order to *improve the values of family life* and social settings.

The focus is to affect change in the entertainment industries' use of violence, vulgarity, pervertions, and demeaning content exposed to our children and youth.

Thank you and may God Bless You.
